

# Jindex QQ High Speed Inkjet Plotter

Based on 2012 UPS Inkjet plotter, Jindex developed QQ series newly high quality inkjet plotter:

- 3 Light Mode:**  
 1. blue: Printing  
 2. Flash Blue: Pause status.  
 3. Red: Stopping

- Advanced & Unique lights display control testing printing, resume origin, stop, Pause, run, move for up, down left & right
- Left urgent key in Silver end covers & Nice transparent tea color Perspex cover, good & strong aluminum stands.
- Super intelligent printing software with "setup by 1 key.", queue & save paper printing etc.

- A PC can control as more as 50 plotters by routers as unique technology, each plotter can be controlled independently
- Standard plotters with 2 Hp45 Cartridges heads, can be upgraded into 4 heads to reach 200 sqm/hr
- directly be work with PC & plotter except by routers.

## Specification & Work flow of printing by LAN:

Model	JD-Q2-105	JD-Q2-165	JD-Q2-185	JD-Q4-205	JD-Q4-225
Max Plot Width	105 cm	165 cm	185 cm	205 cm	225 cm
Max Paper Width	110 cm	170 cm	190 cm	210 cm	230 cm
Plotting Speed With Resolution	80SQM/Hour 300 dpi	90SQM/Hour 300 dpi	90SQM/Hour 300 dpi	180SQM/Hour 300 dpi	180SQM/Hour 300 dpi
Recall Plotting Emergently	If any emergency happen, you can save the plotting files, and then recall the uncomplete markers to plot the drawing.				
Carriage Type	<b>Hp45 NOZZLE</b> without maintenance				
Carriage Number	Two Heads		Four HP Heads		
Curves quality	Computerized smoothness control for lines and Curves, it assure to kill any joints' tooth, the curves are smooth always.				
Length warranty	Continuous & accurate plotting 100 meters without joints				
Feeding Motor & Paper Collection	Newly Feeding Paper Motor can make plotting X/Y size 100% accurate; Automatic collecting paper into front roller-bar, or collecting paper free.				
Port/Interface Electricity Power	<b>Super LAN Port</b> <300W; 110-260V AC; 47-66HZ; (Option:90-120V)				
PC terminal software advantages	Super Terminal PC control software is a dynamic adjusting software with the Server host database, it can preview, edit the queuing files orders in the server computer realtime.				
Server Host software advantages	The Server Host control software is a main edit & plotting processing control software for all the files from different terminal computers with queue changes, preview and other functions.				
LAN & Multi-Plotter plotting On-Line	Realize a computer to control 50 Inkjet Plotters to print at same time by LAN. Each plotter can be setup and controlled easily in Lan.				
Monitor & Paging Technique	Real-time to monitor and remind all kinds of plotting status including the used and remained paper, ink volume, marker length progress etc.				
Gross Weight	90KG	120KG	160KG	200KG	240KG
Servo Control Way & Its Advantages	With Newly innovative coder wheel Servo Motor under closed loop control make Inkjet Plotter more smart and stable working, assure 100% maintenance free.				

### Global Print Center Flow:

### Compatible CAD Software:

GERBER	LECTRA	VETIGRAPH	PAD	ASSYST
DOCAD	OPTITEX	STYLECAD	TORAY	TUKA
